ABOUT US

AB Trading NZ Limited is professionals in Ferrous & Non-Ferrous of Metal Scraps and Pre & Post Industrial Plastic Polymer Scraps. Where the world is busy in manufacturing products made from Metal and Plastic that cause in increasing Metals & Plastic scraps, we bring the solution that balances the eco-system of the world. Our main motive is "Save The Earth" where we re-introduce the same used material into new usable material. There are different types of Industries that can use our export quality Metals & Plastic products taken from Metal and Plastic scraps with the help of our recycling method.

We do not only work within New Zealand but also become one of the best exporters for Ferrous & Non-Ferrous scraps. As far as Pre-Industrial and Post-Industrial are concerned, we provide them the best export material from salvaged. We are recognizing in the buying and selling of Metal & Plastic scraps in New Zealand and in the global market as AB Trading NZ Limited. We build a strong team of the smart brain that can understand customized salvaged materials into beneficial goods to our clients. This helps our clients to re-use scraps Metals & Plastics into their manufacturing production instead of purchasing new Metal & Plastic for their manufacturing industries. By our Metals & Plastic scraps support they also get the same quality of Metal & Plastic at low cost.

OUR HISTORY

We always think something good to make the world a better place in this life but, we business takes us to another direction. But there is a man named Mr.DharmeshPatel, who focuses on studying Metal & Plastic scraps that impacts our Earth's natural environment. He spends many years experiencing Metal & Plastic scrap and finally, he came with the title AB TRADING NZ LIMITED in 2019. Here Dharmesh Patel Entrepreneur works on how to recycle Metal & Plastic scraps and in a business of Metal & Plastic scrap exporting.

There has been a strong enough challenge faced by the company since the beginning. It was not easy to collect the Metal & Plastic scraps and separate it into individual foam like Aluminum, copper, steel, etc but AB TRADING NZ LIMITED works perfectly even in the present date. AB TRADING NZ LIMITED management program includes advanced technology from where they start and manage Metal & Plastic scraps collecting from every possible part of the world. It becomes a successful work as AB TRADING NZ LIMITED also separates individual types of Metals from Tons of Metal scraps. The main reason behind AB TRADING NZ LIMITED success is that they hold one thing that is "hope", it gives them strength, bonding with the world, and a vision to make the world a better place. Do you know what the most challenging work we do was? It was a difficult task to give knowledge to the world about the increasing ration of Metal & Plastic scraps on a daily basis. AB TRADING NZ LIMITED faces a hard time where it was not easy to collect scrap material from all around the world. But the set an example of working as one team, who explains in a better way to the world of how they can reduce the Metal & Plastic scraps by working with us.

"Harder you get hit better you become", this happened with us and today we are the Metal & Plastic scraps recycle company recognized in Auckland, New Zealand.

VISION

We all are living in an educated society where we use most of the dairy products mostly made from Metal and Plastics such as drink cans, plastic bottles, straw, etc. As the majority of the total earth population are using such metal and plastic made products in their daily life. The ration of Metal scrap and Plastic scraps also increasing. Our vision is to collect all those waste Metal & Plastic scraps and process them into re-use goods for any needed Industries. In this way, we can exports more Metal & Plastic scraps and helps manufacture industries to re-use those Metals & Plastic into their finished goods. We always focus on selling our separated individual Metals scraps directly to all needed industries at a low cost.

MISSION

Our mission is to collect tons of waste Metal & Plastic scraps and make it usable to product manufacturing industries. We will be focusing on the recycling system to a high level by opening the loops for our clients in the future.
